

FOR PASTA LOVERS®

Italpasta was founded in 1989 with the goal of creating a pasta that not only met but surpassed the Canadian Food Service Industry's high standards for quality and performance. The demands of the back of the house are great and the needs are often unique. That's why we have devoted years to perfecting our process. Our goal is to be your trusted partner by manufacturing a delicious, high-quality pasta made with only the finest 100% Canadian durum semolina. For the perfect plate of pasta, every time.

SERVING THE FOOD SERVICE INDUSTRY SINCE 1989

THE ITALPASTA DIFFERENCE

- Made in Canada from only the finest quality, 100% Canadian durum semolina.
- Thick wall technology helps to ensure that each plate of pasta is perfect every time.
- A high-quality pasta offered at a competitive cost.

WHY ONLY CANADIAN WHEAT?

- high protein content - contributes to Italpasta's superior cooking quality
- strong gluten levels - contribute to Italpasta's firm texture and 'al dente' bite
- bright yellow pigment - contributes to Italpasta's appetizing presence on a dinner plate.

SMALL CHANGE, BIG IMPACT

We have committed to making small, but impactful changes to operate more sustainably and reduce our environmental footprint under our sustainability program by providing...
